

Boult Earbuds in India 2026: Five Reasons They are the Smartest Budget Pick

Category: Business

written by International Khabar | July 24, 2026

Wireless earbuds have become an everyday accessory for listening to music, taking calls, attending online meetings, gaming, and travelling. For shoppers looking for these conveniences without moving into the premium price segment, Boult offers a wide range of feature-rich earbuds in India. Select models combine active noise cancellation, Environmental Noise Cancellation (ENC) for clearer calls, low-latency gaming modes, fast charging, long battery life, and water resistance. With options designed around different listening habits and usage needs, the range makes it easier to find an affordable

pair without giving up useful everyday features.

Boult Earbuds in India 2026: Five Reasons They Are the Smartest Budget Pick

After shortlisting a suitable [Boult earbud](#) model, shoppers can browse options on Bajaj Mall and compare battery life, calling features, gaming modes, and prices before visiting a Bajaj Finance partner store. A Bajaj Finance Easy EMI Loan offers financing of up to Rs. 5 lakh with repayment tenures from 3 to 60 months, while the Insta EMI Card provides a reusable credit limit of up to Rs. 3 lakh with zero annual fee. Select models may also be available with a zero down payment offer. Both financing options require shoppers to be physically present at a partner store to apply.

What makes Boult earbuds worth buying in 2026?

From long battery life to gaming-friendly features, Boult earbuds pack several premium features into accessible price points.

1. Long battery life for uninterrupted entertainment

Several Boult models offer up to 60 hours of total playback with the charging case. Fast charging delivers hours of listening time in just a few minutes – useful for commuters, students, and professionals who cannot afford frequent recharging breaks.

2. Powerful bass and immersive sound

Boult earbuds use large dynamic drivers, including 13 mm BoomX drivers on several models, tuned for punchy bass and clear vocals. The sound profile suits music, movies, and podcasts without paying a premium price.

3. Low-latency mode for smoother gaming and streaming

Many Boult earbuds feature Combat Mode with latency as low as 45 ms, reducing the delay between on-screen action and audio output for a more responsive gaming experience and better lip-sync during video streaming.

4. ENC-powered calling with dependable wireless connectivity

Boult integrates Environmental Noise Cancellation across

several models to reduce background noise during calls. Bluetooth 5.3 or 5.4 on many recent models adds stable connectivity, faster pairing, and reliable everyday performance.

5. Wide range of affordable options

Boult earbuds are priced from under Rs. 1,000 to around Rs. 1,800, with ENC, low-latency gaming mode, large dynamic drivers, and long battery life available across the range.

Best Boult earbuds in the affordable segment in 2026
