Driven by the deep belief in education as a powerful force for change, Dr. Roy C.J., the visionary behind the leading builder, **Confident Group**, awarded Rs. 1 crore in educational scholarships to 201 deserving school students across Kerala and Karnataka. The initiative, a cornerstone of his philanthropic vision, was celebrated at a ceremony where Dr. Roy C.J emphasized that education is not just a tool for individual growth but the foundation of a stronger nation.

Dr. Roy C.J. Founder and Chairman, Confident Group with the scholarship recipients

"This scholarship isn't a corporate gesture, it's deeply personal. I strongly believe that no child with potential should ever be limited by their circumstances. This conviction is why we have chosen to allocate our family funds to a cause like this," said **Dr. Roy C.J., Founder and Chairman of Confident Group** while handing over the cheque to students. *"It reflects my family's belief that when we invest in a child's potential, we invest in the future of our society,"* he added. His dedication extends beyond education, with impactful interventions in healthcare, women's empowerment, and support

for the differently-abled.

A firm advocate for equitable opportunities, Dr. Roy C. J. has long championed education as a catalyst for change. The scholarship program aimed to support students studying in 8th to 10th standard at government-recognized schools. Each selected student received a scholarship of up to Rs. 50,000, or their actual school fees. Eligibility for the scholarship was determined by a combined annual parental income below Rs. 5 lakhs, coupled with the student achieving over 80% in their previous academic years final examination. Furthermore, to extend support to multiple deserving individuals within a single household, a maximum of two children per family were eligible, contingent upon all specified conditions being met.

Looking ahead, Dr. Roy C.J. announced an ambitious expansion of the program, aiming to support 300 students in 2026.
