The new 10-screen multiplex is built to offer a seamless and comfortable viewing experience. It features advanced projection and sound technologies, including Macro XE, RealD 3D, and Dolby formats, with a total seating capacity of nearly 1,900. From immersive visuals and precise acoustics to comfortable seating and the Cinepolis Coffee Tree café, every element of the multiplex is curated to make movie-watching more engaging and enjoyable.

Speaking about the launch, **Mr. Devang Sampat, Managing Director, Cinepolis India**, said, *"We are delighted to bring a world-class cinema experience to Hyderabad with the opening of our latest multiplex at TNR North City. This property reflects our commitment to redefining entertainment for our patrons by combining innovative technology with exceptional service and premium offerings. Hyderabad is a vibrant city with a rich cinematic culture, and we are confident that this new multiplex will become a favorite destination for movie lovers in the region."*

The launch reflects Cinepolis' continued effort to grow its network while introducing consistent upgrades in technology, comfort, and service standards to enhance the overall cinema experience for audiences across the country.
