

Eveready Announces Strategic Expansion of Product Portfolio; Forays into Mobile Accessories Segment

Category: Business

written by International Khabar | September 22, 2025

- Launches powerbanks from 10K mAH to 20K mAH variants, along with built-in cable models
- Chargers ranging from 12W to 65W GAN have also been introduced

Eveready Industries India Ltd., the India's leading battery and flashlight brand, has announced its entry into the mobile accessories segment. The strategic move is a sign of Eveready's willingness to keep pace with shifting consumer lifestyles and digital connectivity needs.

Eveready enters the mobile accessories market with fast-charging solutions

With a 100-year-old long legacy built on delivering reliable power solutions, Eveready is taking a step forward by introducing an all-inclusive and comprehensive range of mobile accessories, which includes power banks and chargers designed to keep consumers seamlessly connected anytime, anywhere. The new product line blends Eveready's signature quality and innovation with features designed to meet the demands of today's fast-paced, mobile lifestyle.

"Eveready's foray into the mobile accessories segment represents a significant step forward in our mission to power everyday life in India. We are steadfast in our commitment to offering reliable and innovative solutions that cater to the evolving needs of today's connected consumers. With the introduction of high-quality power banks and chargers, we aim to provide millions across the country with consistent, on-the-go power. This expansion not only strengthens Eveready's legacy as a trusted brand but also signals our embrace of the future of digital mobility and convenience," said **Mr. Anirban Banerjee, CEO, Eveready.**

The new range of Eveready mobile accessories includes handy and universal power banks ranging from 5,000 mAh to 20,000 mAh with easy-to-use Magsafe-compatible as well as cable-included variants for hassle-free on-the-move charging. These are

supported by effective chargers in between 12W and high-powered 65W GAN chargers, which provide fast, secure, and dependable charging for an array of devices. Additionally, with this launch, Eveready has also introduced a versatile range of charging cables featuring premium nylon-braided options, fast-charging support up to 5A, and universal compatibility with Apple, Android, and Type-C devices. These products are competitively priced to make high-quality mobile power solutions accessible to a wide range of consumers across India.

“Eveready has been a trusted name in Indian homes for decades, delivering dependable power through our batteries, flashlights, and lighting solutions,” said Ms.Insiyah Chawala, Senior General Manager, Eveready. “As consumer lifestyles evolve, so must we. Our entry into the mobile accessories category is a natural progression, highlighting a shift in mindset that true fast charging needs a fully compatible system. The entire mobile accessory system must support rapid charge, from charger to cable to power bank. This strategic diversification reinforces our vision to be synonymous with power in any form, for all consumers.”

With this exciting new chapter, Eveready continues to power the lives of millions, staying true to its promise to offer reliable, innovative power solutions as consumer needs evolve in India’s digital era. The range also includes thoughtful additions like wireless charging pads and compact, travel-friendly designs to enhance everyday convenience, making Eveready a one-stop destination for modern mobile power essentials.
