

# MAAC Concludes its 6.0 Edition of the 100-Hour Tech Challenge in 3D Animation Film and Mobile Filmmaking

Category: Business

written by International Khabar | May 6, 2025

- Over 180+ entries and over 900 participants from MAAC centers across India joined the thrilling movie-making marathon! ~
- Students received 1400 hours of mentorship

**MAAC**, a premiere institute and a pioneer in high-end 3D animation Gaming & VFX training, organized “**100 Hours**” – a tech-led challenge to make 3D animated movies and digital-first films for the students of MAAC, pan India. The theme for this challenge was Technology & Human Co-existence for 3D Animation and Women’s Safety, Artforms and Mental [Health](#) for Digital Filmmaking.

## **Work by the students of MAAC Thane for 100 Hours**

During the event the participating students received 1400 hours of expert guidance during the filmmaking process and hands-on experience on a production pipeline from start to end including pre-production, production, and post-production in 3D Animation. As part of this Creative filmmaking Marathon which lasted 100 Hours, students got to witness a one-of-a-kind experience working towards an output of an animated/mobile-made short film. The mobile film-making category was introduced for, the second time this year considering the significant consumption of content in the form of reels and short films by the youth.

The tech challenge saw high participation, with roughly 180+ teams (5 students per team) who created 180+ animated short films & Mobile short films. This means, nearly 900+ students (90,000 hours) collectively created over 9,000 seconds of films in 100 hours. (Students created 3,000 seconds of Animation short films and 6,000 seconds of short films in mobile filmmaking). The design of this tech challenge is based on the 360 Degree Skills Advantage principle of MAAC which puts students' skills & talent to test and evaluates their preparedness for jobs in the industry. A student gets to experience real-life work scenarios and monitor their progress in line with the time given, to complete the task while using various relevant software and back-end support extended by the centres. The challenge also gives them a hands-on experience of working in a professional studio-like environment making them highly skilled and workforce-ready from day one.

**Mr. Sandip Weling, Chief [Business](#) Officer, Global Retail Business, Aptech Limited and Brand Custodian, MAAC** said, *"MAAC 100 Hours is more than a competition; its a journey of learning, experimenting, and excelling for our students. Its about late nights, endless cups of coffee, and a passion that drives them forward. Witnessing their dedication and creativity reminds us why we love what we do. Our students*

*pour their heart and soul into these projects, honing their skills and executing ideas that can shape their future. Each moment of this exhilarating challenge is a step closer to their dreams. Its in these moments of pressure that we see their true colours shine brightest. And as they push themselves to meet deadlines and overcome obstacles, theyre not just preparing for a career; theyre becoming the [industry leaders](#) of tomorrow.*

Winners of the competition receive a cash prize, a memento, and a Certification of Merit. Additionally, all student participants will be granted a certificate of participation.

Through its top-notch curriculum and comprehensive skill set including technical prowess, industry acumen, creativity, teamwork, adeptness with deadlines, resilience, and personality development, MAAC consistently hones students abilities across various facets of the Media & Entertainment Industry, including 3D Animation, VFX, Gaming, and Multimedia & Broadcast. MAAC underscores the significance of initiatives like “100 hours” in not only equipping young individuals with essential skills but also priming them for prosperous careers in the Media & Entertainment sector.
