JAMSHEDPUR, INDIA – NIDAAN Intelligence Services (I) Private Limited, an ISO 9001:2015 certified and MSME-registered leader in risk management and investigative solutions, today announced the nationwide availability of its unified Accidental Death Claim investigation services for corporate insurers and individual policyholders across India.

Building on an operational legacy that dates back to 2005 and formal incorporation in 2017, NIDAAN brings together a multidisciplinary roster of over 350 seasoned professionals across various Indian cities under a single, streamlined

service model.

Key Strengths & Core Offerings

- **Pan-India Field Intelligence:** Immediate deployment of local investigative teams across metro hubs, Tier-2, and Tier-3 cities nationwide.
- **Single-Window Solutions:** Comprehensive investigation of accidental death claims under life, group, and personal accident policies for corporate entities, financial institutions, and individual claimants.
- **Decades of Industry Leadership:** Proven methodology delivering thorough field verifications, forensic document checks, witness interviews, and objective cause-of-death reports.
- **Quality Compliance:** Certified under ISO 9001:2015 standards, guaranteeing data privacy, strict regulatory adherence, and standardized turnaround times.

Accidental death claim verification demands rapid ground response, deep local familiarity, and meticulous legal rigor. By centralizing ground operations under one umbrella, NIDAAN eliminates administrative delays and delivers consistent, court-ready reporting that protects insurers from fraud while ensuring legitimate claims are processed seamlessly.

“Our goal is to deliver clarity, legal precision, and trust at every stage of the claims verification process,” stated the leadership team at NIDAAN. “By uniting more than 350 ground investigators, legal advisors, and forensic experts across India, we offer corporate clients and individuals a single dependable partner for complex claim resolution.”
