A promotional banner for NIDAAN Intelligence Services. The banner is split into two main sections. The left section, labeled 'FROM METROS...', shows a dense city skyline with the NIDAAN logo (a large red 'N' with 'idaan' in blue) overlaid. The right section, labeled '...TO SMALL & MEDIUM CLASS CITIES', shows a suburban neighborhood with a large blue shield in the center containing the NIDAAN logo. Below the shield, the text reads 'SECURING SMALLER CITIES: Proactive Verification Against Rising Crime' and 'Mitigating household security risks in Tier-2 & Tier-3 urban areas'. On the bottom left, there are three icons with text: a checkmark in a circle for 'ISO 9001:2015 Certified', a storefront for 'MSME Registered Firm', and a clock for '20+ Years Industry Legacy (Since 2005)'. At the bottom, there are two contact links: a globe icon followed by 'www.nidaanintelligenceservices.com' and an envelope icon followed by 'business@nidaanintelligenceservices.com'.

JAMSHEDPUR, INDIA] – September 6, 2026 – Addressing the critical need for household security beyond major metros, NIDAAN Intelligence Services (I) Private Limited has officially launched its specialized Domestic Help Verification services in small and medium-class cities across India. With criminal incidents involving unverified home staff rapidly escalating in emerging urban hubs, NIDAAN's expansion offers corporate-grade background screening directly to residential households nationwide.

While domestic staff verification has traditionally targeted

tier-1 metropolitan hubs, rapid urbanization in smaller cities has created significant security vulnerabilities. Hiring unverified maids, drivers, cooks, and caretakers leaves families exposed to theft, property damage, and violent crime. NIDAAN mitigates these risks by delivering standardized, rigorous background checks tailored for local residential communities.

Core Verification Capabilities:

- **Identity & Address Validation:** Multi-step physical and digital checks to confirm authentic identities and permanent residential addresses.
- **Criminal Background Screening:** Comprehensive checks against local legal databases and law enforcement records.
- **Past Employment Verification:** Detailed history checks to validate integrity, past performance, and reasons for prior departure.
- **Tier-2 & Tier-3 Optimization:** Rapid-turnaround screening designed specifically for emerging small and medium cities.

Proven Track Record & Trust Credentials:

- **20+ Years of Industry Leadership:** Delivering professional investigation and verification solutions since January 1, 2005 (incorporated on March 22, 2017).
- **25,000+ Clients Served:** Trusted partner to thousands of individual families, housing societies, and corporate entities across India.
- **Certified Credibility:** Fully ISO-certified and MSME-Registered firm committed to strict data privacy and legal compliance.

“Security is a fundamental necessity for every household,

regardless of location,” stated a spokesperson for NIDAAN Intelligence Services. “By extending our verification network into small and medium cities, we empower families to make informed hiring choices and eliminate safety risks before bringing domestic help into their homes.”
