As consumers increasingly gravitate towards premium, designed and smart lighting solutions, Bangalore stands out as a pivotal market. As India's innovation and IT capital, Bangalore has a high concentration of tech-forward customers who are early adopters of smart home automation and place strong value on modern, decorative design. This demographic readiness combined with the thriving real estate landscape makes Bangalore the ideal, high-impact market for our triple launch.

Commenting on the milestone launch, **C Arun Kumar, Head of Consumer Business, Signify Greater India** said, *“Bangalore continues to be a key market for us, driven by consumers who embrace both functionality and innovative design. We have 328 stores across India now, the simultaneous launch of three new Philips Smart Light Hubs, anchored by our largest premium store, is a significant step in our journey. These immersive hubs will allow customers, architects, and interior designers to truly explore the transformative potential of our smart and decorative lighting portfolio, reinforcing our commitment to delivering cutting-edge solutions”.*

Located across prime locations in Bangalore these stores feature an exclusive experience center including a wide range of smart, connected and decorated lights. These stores are designed to meet the customers’ home lighting requirements, ranging from **decorative lights** like chandeliers, wall lights, floor lamps and track lights to **functional lights** like modular COB, downlighters, magnetic tracks, panels, and spots. The

store also features WiZ, our smart lighting solutions and smart services that offer customers connected lighting, so they can enjoy their daily moments with more comfort and ease. Additionally, the store features an exclusive display of Ecolink BLDC Fan Range and Philips iluminAir LED Light with fan, offering energy-efficient and stylish options for modern homes.
