

TaskUs Moves Greener: TaskUs India Accelerates Sustainable Commutes with Large-Scale EV Transportation Rollout

Category: Business

written by International Khabar | February 6, 2026

[TaskUs Inc.](#) (Nasdaq: TASK) a leading provider of outsourced digital services and next-generation customer experience to the world's most innovative companies, today launched an Electric Vehicle (EV) transportation program for the daily commute of its teammates in India.

Sapna Bhambani, SVP of Operations and Country Leader, India at TaskUs, unveils the company's new EV transportation program in Gurugram, advancing greener commutes and reducing carbon emissions

The EV transportation program starts in Gurugram at the TaskUs Mystiqa site, where approximately 20% of the existing fleet will be replaced with environmentally-friendly electrical vehicles. The company plans to electrify nearly half of its Indian fleet by the end of 2026, targeting an interim milestone of 100 EVs by July and a total of 300 units by year-end. Overall, TaskUs plans to transition 45%-50% of its transportation fleet to EVs this year.

TaskUs estimates that more than 35% of all teammates that use

the company's transportation program will benefit from the introduction of EV transportation. Each EV in the fleet will cut carbon emissions by approximately 3.2 metric tons per year, and this initiative in the first year will reduce carbon emissions by nearly 360 metric tons.

"The TaskUs People-First ethos extends far beyond our immediate team; it embraces the communities and cities where we operate. This initiative represents our dedicated contribution to reducing carbon emission and noise pollution in the urban environments we call home," said **Sapna Bhambani, SVP of Operations and Country Leader, India at TaskUs.**

This program marks a significant milestone in TaskUs India's sustainability journey and reflects the company's continued focus on operational excellence aligned with environmental responsibility. As TaskUs expands its green initiatives, it remains committed to integrating eco-friendly solutions that support both its growth trajectory and its responsibility to the planet.
